Gourav Kumar Singh

Gajraula, Uttar Pradesh – 244235 — +91-7467060959 — gouravsingh1604@gmail.com
LinkedIn GitHub LeetCode

Professional Summary

Software Engineer with experience in developing full-stack applications, REST APIs, and enterprise automation solutions. Proficient in Python, React.js, JavaScript, and SQL, with a strong foundation in DSA, OOP, DBMS, and System Design. Adept at solving complex problems and building efficient, scalable software systems.

Professional Experience

Software Intern- Jubilant Ingrevia, Uttar Pradesh-India Jul 2025 – Aug 2025

- Optimized and maintained enterprise-scale ERP systems, improving workflow efficiency and operational reliability.
- Engineered 5+ interactive MIS dashboards, reducing manual reporting effort by 40%.
- Collaborated with cross-functional teams following Agile methodology and SDLC practices.

Web Developer Intern- Bluestock Fintech, Maharashtra-India May 2025 – Jun 2025

- Developed responsive frontend and backend web applications serving 100+ users using React.js, JavaScript, and Tailwind CSS.
- Built and optimized scalable RESTful APIs, improving application performance by 30%.
- Integrated backend APIs with frontend components ensuring efficient database interactions.

Education

Bachelor of Technology (Computer Science & Engineering) 2022 – 2026
Graphic Era Hill University, Dehradun SGPA: 7.39/10

Projects

Web Scraper Security Analysis Aug 2025 – Nov 20 2025

- Designed a Python-based security auditing framework with automated vulnerability detection.
- Implemented SSL/TLS validation, HTTP header inspection, web scraping, and Nmap-based port scanning.
- Reduced manual security analysis effort by 25%.

C/C++ Compiler Visualizer and Analyzer Mar 2025 – Jul 2025

- Built a compiler pipeline including lexical analysis, AST construction, semantic validation, and TAC generation.
- Designed optimized symbol table management with scope resolution and static type checking.

Weather Forecasting System Aug 2024 – Dec 2024

- Developed forecasting models using Linear Regression, Random Forest, and LSTM.
- Improved prediction accuracy through preprocessing and feature engineering.

Spam Mail Detection System May 2023 – Jul 2023

- Built a supervised ML pipeline using Naive Bayes, SVM, and LSTM.
- Applied NLP techniques including TF-IDF and text normalization.

Technical Skills

Languages: C/C++, Python, Java, JavaScript, SQL, HTML/CSS
Frameworks: React.js, Node.js, Fast API, REST APIs, Tailwind CSS
Libraries: Pandas, NumPy, Matplotlib
Tools: Git, Docker, VS Code, PyCharm, Claude, GitHub Copilot, Notion AI
Core Concepts: DSA, OOP, OS, DBMS, Compiler Design, System Design, SDLC, Agile

Certifications

- Introduction to Cyber Security – SWAYAM (2025)
- Communicative English – SWAYAM (2024)
- Google Cloud Computing Foundations – SWAYAM (2023)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle (September 2025)
